To Whom It May Concern

This is to inform you that USAID-Haiti has had a professional relationship with Mrs. Marlene Mathurin for the past 8 years, through her work as the Founder of Foundation for the Survival of Haitian Children and Director of Chambre de l'Enfance Nécessiteuse Haitienne (CENH) since 1995. From March 1998 to September 30, 2002, CENH successfully implemented the USAID/Haiti's program on behalf of orphans and at-risk children, through a subcontract with our contractor Adventist Development and Relief Agency Haiti (ADRA/H)

Despite the ending of this latest subcontract, we understand that Mrs. Mathurin has remained involved in trying to establish a sustainable structure for the program.

With her dedication, we wish her the best in her continue efforts to advocate on behalf of orphaned and at-risk children in Haiti. I afford Marlene my highest recommendation without hesitation.

Port-au-Prince, November 16, 2003

**Marion Warren
Education Officer**

Saint Anthony Catholic Church

Since 1921

September 8, 2010

To whom it may concern:

For the past 3 years, Saint Anthony Parish has supported the At-risk Children Foundation in Haiti. I am very satisfied with the progress in which they have made during that time. However, their needs are great and resources are limited.

I pray that through this grant, you will be able to assist them with securing additional funding for the future of the children.

Sincerely,

Reverend Jerry Singleton
Pastor

Church of Saint Maurice Hunger Program

August 20, 2010

To whom it may concern:

The St. Maurice Hunger Program provides funding to 28 projects here in Florida, in the Caribbean, in Central and South America, and in Asia. The criteria that we use for funding are: the project must have a serious need for financial support; and the funding must be used for food and/or water. The **At Risk Children's Foundation** is one of our projects, and we have been providing it with support of \$4,000 annually. All our projects receive annual reviews to assess their needs, and we are very satisfied with the progress being made by the **At Risk Foundation**. The need for funding is even greater now due to the dire conditions in Haiti because of the earthquake. We are very happy to learn that all of the children are now housed in one location. It is our hope that the foundation will be able to secure the additional resources that are so desperately needed.

Sincerely,

Mary Becconsall, Secretary

The Board of Directors of the St. Maurice Hunger Program

August 23, 2010

Dear Sir:

I have happily given to At Risk Children Foundation, Inc. due to the immense need of the orphaned children. My donations have been a struggle for, due to my lack of current employment. However, because I have evidence and I believe in the wonderful work ARCF is performing, I have contributed over \$3,000.

If humanly possible, I will continue to contribute to save the lives of the orphaned children of Haiti. I am happy to endorse ARCF should you wish to contact me. For convenience you may write to me at gypsygal@bellsouth.net.

Very truly yours,

Mary Moran

DR. NORMAN B. CARROLL

August 23, 2010

To Whom It May Concern:

My family and I have been providing support for At Risk Children Foundation, Inc. in the amount of approximately \$15,000 to \$20,000 per year for each of the last four years totaling about \$72,000. ARCF has used these funds to give life and care for 120 children in Haiti of whom fifty-eight are orphans. It is noteworthy that ARCF has also cared for over sixty additional children indirectly. Nine children lost their lives in the horrific earthquake of January 12, 2010.

We have been greatly impressed with the homes, education, clothing and feeding of these children accomplished by ARCF. Indeed, these children would not have survived without ARCF.

Fell free to contact me for full recommendation of ARCF through my above referenced address or e-mail: nbc10@bellsouth.net.

Yours sincerely,

Dr. Norman Carroll

United Methodist Committee On Relief

TO WHOM IT MAY CONCERN

As a long-standing partner of Foundation for the Survival of Haitian Children (FSEH) now At Risk Children Foundation, Inc UMCOR is pleased to write this letter of recommendation.

Our partnership with FSEH/ARCF has been mutually beneficial. We have supported several of FSEH's projects with several donors since 1997.

The staff at ARCF and the group of volunteers are commendable in reliability and profession ability. UMCOR has had success in implementing programs through FSEH/ARCF. We have them agreeable and responsible in all project areas, to name a few; the "Block Making Project".

I do not hesitate to recommend FSEH/ARCF as a worthy organization to receive funds or implement programs.

Sincerely,

Janet Bauman
Head of Mission
UMCOR Haiti

October 16, 2006

TO WHOM IT MAY CONCERN:

One Family International (OFI) was contacted early in 2006 by the At-risk Children Foundation (ARCF) with a request for funding for a water cistern to be built to serve a group of orphaned children ARCF takes care of. Additionally, the nearby staff and villager were to benefit from the water catchments system. Also requested of OFI by ARCF was assistance in organizational development, through consultancy services by OFI's director.

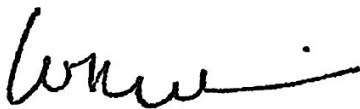

With a couple of phone calls, OFI was able to ascertain that ARCF is an honorable and effective organization. Do to the emergency need for the cistern and the pending rainy season in Haiti, during which the water could be caught, OFI fast-forwarded the application approval process. An award of US\$9,000 was made, along with an initial visit conducted by the OFI consultant.

In short order, the volunteers supporting the orphanage in Haiti went to work and built the cistern, which is now in use. Additionally the OFI director spent four days working with the ARCF director in developing a plan for board development. Several names of possible board members were provided by OFI.

ARCF has been diligent and responsive in performing its duties and responsibilities during the course of this relationship between the two agencies. The success in building and implementing the water catchments project and the board development recommendations that have been enacted speak well for ARCF. OFI is confident of the future development and success of ARCF.

We are pleased to be part of the development of ARCF and look forward to our future working relationship.

Sincerely,

**Bill Winkley
Executive Director**
